Unique Program Information

Lead Professor Model

- The core classes that are common to all of the MBA programs (i.e., MGT 5015, MGT 5020, ECN 5050, ACT 5060, MKT 5070, FIN 5080, and OPS 5095) are all taught under this model
- Courses are directed by a Lead Professor whose job it is to ensure consistency across all sections of a class (and modalities).
- Individual course sections are taught by an Instructional Specialist whose job is to lead the weekly learning and provide the first line of assistance to students.
- Some Lead Professors are very involved in the teaching of courses while others work more in the background, overseeing the work on the Instructional Specialist and providing assistance as necessary and appropriate.
- All courses under the Lead Professor (LP) model, even those that are ground-based, have a Blackboard component to facilitate communication between the Lead Professor and students.
